

Under the Deep South Sky

(South of Madagascar)

This itinerary is a trip to the far south of Madagascar. From the capital, we descend to Tulear with a detour to visit the lemurs in Ranomafana. The Isalo plateau will be a happy pretext for a nice hike in a grandiose setting. The relaxing stay by the lagoon of Ifaty allows us to discover the sweetness and moods of the Mozambique Channel. We are then flying over the dry region of Madagascar; the Androy, to reach the far south of Madagascar.

Day 1
